### President Letter – March

Ladies, recently my husband and I decided to take on an exercise program three nights a week with a company called Tribe Fitness. This was recommended to me by a friend of mine. You know the one, you haven't seen in a few months and then when you see her you look at her and say okay what are you doing, something has changed, and she recommended this group. We went and looked at a class and looked at each other with a there is no way we are going to be able to do this. We are 20 years older than anyone in here, thank you very much. But the person who met with us said no we have a one-on-one class, why don't you give it a six week try so we did. It's worked out well. I can't say I've lost a lot of weight, but I definitely started to reposition things where they probably should have been 25 years ago. In going through this, they have a code. Their code is:

1. We live the code.
2. We collaborate to innovate.
3. We work hard with excellence.
4. We build lasting relationships.
5. We practice honesty and integrity.
6. We deliver a consistence experience.
7. We measure our success by other's success.
8. We connect God's blessing with his purpose.
9. We develop ourselves to help others realize their potential.

This code can apply to all of our businesses. This is what we do. Each and every one of you run a successful business that helps other people, and it's been such a privilege to be in this group to meet all of you. The WBF women have a heart for service, a heart for what they do, and a heart for each other. I just wanted to share this with you because in everything we do we are stronger together.

That's it, and no I still can't do that jump rope thing.

Blessings,  
Lori
